RE-STRAPPING WARRANTY

We do not manufacture the strapping material used to re-strap the furniture.

The manufacturer does not warranty any of his products.

The straps are made of virgin vinyl and include an elastic element to allow the stretching of the material to affix it to the furniture frame.

The top side of the strap has a protective coating to help prevent staining and loss of color. Using a harsh cleaning agent or power washer may void any warranty of this product.

Discoloring and staining of straps carry no warranty.

Dr Strap offers a limited warranty as to the workmanship only.
